iLinux, the Beautiful, Powerful and Revolutionary macOS alternative!

I really loves this OS, as it give me the feeling of using macOS, without paying, or tinkering to enjoy using it!

The developer behind this is really fantastic!

@Sifo

What OS you were using before iLinux?

How TF can you post as me **@Sifo**.

That's not me.

@Sifo

Do you think iLinux is better than macOS High Sierra and if yes, how?

I am very interesting to hear your point of view.

Yeah, iLinux is really fantastic! 500 preinstalled applications saves me a lot of time finding the Internet. And with the prebundled VirtualBox PC Emulator I can use my macOS apps too! It's revolutionary.

@Sifo

macOS Apps in VirtualBox can be really slow if you don't have a powerful rig...

@ClickNin.

It's funny.

I am asking **@Sifo** and **@ClickNin** answers...
