Changed your life huh?! How?!

@iLinuxisCool

I'm very curious to hear your story with iLinux!

#3. include_stdio_h 05 Mar 2022 17:37:39

@iLinuxisCool

We all know you are @iLinux Creator kissing your own arse on an alt.

You and your hundreds of alt accounts don't fool us. You claim that your reason for not requiring registration for this forum is that you want to guarantee uncensored free speech, but everyone knows the real reason is so you can pull off shit like this.

Get a life.

@include_stdio_h

Why so nervous "Linux Mafia Army"?

Want to talk about (your) alt accounts "Linux Mafia Army"? Check your mirrors and check previous Threads in this Community.

Your staged ironic provocation with **@iLinuxisCool** in this Thread was so obvious, even a Rookie in PSYOPS could see it coming from 1000 parsecs away.

Oh, by the way, thank you for showing us that you have managed to hack your way into the security of this Forum Software (which is not Developed by us) and that you can post as us, aka "iLinux Creator" or "iLinux Support Team", but we will never lock or shut down this forum because we have a little surpise for you.

Stay tuned...

It's obvious that Uncensored and Uncontrolled Free Speech is disrupting the reputation of your Orwellian self proclaimed "Linux Community", your long term plans and your flow of "Cookies" money, so let's remember what @root said about you:

> *“ Well, let's talk about the so called "Linux Community"...*
>
> *It's no secret that 99% of all those "Linux Community Websites & Linux YouTube Chanells & Linux IRC Chat Channels", promote 5-10 Linux Distros out of 100's. This is not random.*
>
> *And it goes deeper that that. The hostile behaviour of this "Linux Mafia Army" when you talk about other distros than the ones they push, is classic...*
>
> *All those "Linux Community Websites & Linux YouTube Chanells" sell your browsing data to 1000's of capitalist companies by spying on you via Cookies, so even in most Linux distros (FOSS or not) you are the product...*
>
> *I am not saying that it's bad to want to make money, but if at the same time you are preaching Internet Freedom and FOSS, it's a bit hypocritical at best.*
>
> *So, don't lecture us about the so called "Linux Community".*
>
> *We know the subversive and covert tactics of your "Dark Web Gang": Online Mob/Swarm Misinformation, Online Mob/Swarm Slandering, Online Mob/Swarm Character Assassination, Online Mob/Swarm Psychological Operations, Online Mob/Swarm Sabotage.*
>
> *You may have positioned yourself at the backbone of the internet, pulling strings from the shadows, but you are not invisible.* ”

> *“ They want you to release your Proprietary Code as FOSS in order to profit from it.*

> *It's a classic tactic of the "Linux Mafia Army", to apply negative psychological pressure in order to discredit and discourage developers, steal their code and profit from it in any way.*
>
> *And because they plan far ahead, I think they fear of what iLinux may become.* ”

@Linux Soul

OH, iLinux is really fantastic! From innovative UIs, macOS applications compatibility to OLD COMPUTER SUPPORT!!

Dynamic Virtual Memory is an innovation, it allow me to have full control over the system and allow it run faster without worrying about mamory!

500+ built in apps is more than enough for me to start working immediately when I turned on my computer.

Ignore all of hates about iLinux, I feel in love with it.

#6. ClickNin 07 Mar 2022 04:18:49

@iLinux Support Team

Let me say again, there is no "Linux Mafia Army" here.
You and your stupid alts talked about it first, I can show the proof now. I'm never mentioned about it before, see my first post.

Is that Free Speech? NOPE.

You say you respect Free Speech, meaning everyone have the permission to say whatever they want, then when they say that iLinux is bad, iLinux is worse, iLinux is missing, etc. You say that they are a part paranoid "Linux Community" when they never talked about it before. Then you continue pushed this to this day. This isn't what a friendly community should be.

Now, **@include_stdio_h** or whatever you are, hacking isn't good.

Your license is a GPL Violation and this might been bring to the court of USA.
The 20 EURO fee for Enterprise is a another Intellectual Property violation, by "selling" or whatever you are doing with that so called "fee", in this case if you bundled the whole OS with all of it's preinstalled applications, you are SELLING the things that ISN'T BELONGS TO YOU. There is no clear explains in the license wherever saying that what software is bundled with it when the Enterprise paying that 20 EURO "fee".
Saying something that is "scam" isn't a bad and illegal thing, so it's impossible to bring someone to the court if they say that "this thing is a scam".

Regarding that, you are a liar, promote Free Speech while saying others as "Mafia", selling software that is not belongs to you, ignore to all suggestions. You are a real crime and mafia here.

That's it.

@ClickNin

> *“ Let me say again, there is no "Linux Mafia Army" here.* ”

You just proved (again) that "Linux Mafia Army" is here and that it exists and that you are a Member of it.

If you were not a member of the "Linux Mafia Army", it would be impossible for you to know if anyone who writes in this Community is a Member of the "Linux Mafia Army".

Since you are a Member of "Linux Mafia Army", you would never confirm that you belong to this Paid Army of Mercenaries.

But the fact that you are absolutely sure, without any doubt, that "Linux Mafia Army" does not exist, it is solid proff that it exists and confirms what we already know.

> *“ I can show the proof now.* ”

Where is the proof?

> *“ Is that Free Speech? NOPE.* ”

Free Speech = You can write whatever you want and bare the appropriate responses.

> *“ You say that they are a part paranoid "Linux Community" when they never talked about it before.* ”

No covert organization/team ever admits it's existence.

Especially if they have been exposed.

The so called and Self Proclaimed "Linux Community" has nothing to do with the real Linux Community.

The real Linux Community is the SUM of ALL Linux Users and ALL Linux Developers.

The so called and Self Proclaimed "Linux Community" indeed controls 99% of Linux Community Websites & Linux YouTube Chanells & Linux IRC Chat Channels.

The so called and Self Proclaimed "Linux Community" is indeed the "Linux Mafia Army".

> *“ This isn't what a friendly community should be. ”*

No Censorship = Friendly

Friendly Community = You can write whatever you want and bare the appropriate responses.

When you attack someone with bad intent don't expect friendship. Expect retaliation.

When you begin War with the wrong opponent, don't expect mercy.

About the Legal stuff, READ THE "OEM & MERCHANT LICENSE" VERY CAREFULLY:

https://ilinuxos.com/oem-and-merchant-license.html

The 20 Euros (V.A.T. INCLUDED) Fee per COMPUTER or DEVICE is the Price that entitles OEM, Companies & Merchants to Sell and Distribute the Work, the Copyrites, the Intellectual Properties and the Components that the Creator of iLinux OS (George Dimitrakopoulos) has Created and Embedded in iLinux OS.

IT IS NOT for Buying, Distributing or Licensing any of the other Copyrites and Intellectual Properties included in iLinux OS, OR any of the other Free Software included in iLinux OS, OR any other kind of Free Digital Material, including but not limited to, Applications, Code, Scripts, Artwork, Icons, Fonts etc. included in iLinux OS, OR for Licensing any of the other Patents of Free Software included in iLinux OS.

IF YOU PLAN TO COMMERCIALLY USE OR COMMERCIALLY DISTRIBUTE AND SELL iLINUX OS, YOU MAY BE OBLIDGED BY LAW TO ACQUIRE THE NECESSARY LICENSES AND PERMISSIONS FROM ALL OR SOME SOFTWARE COPYRIGHT/PATENT HOLDERS OF FREE OR NON-FREE SOFTWARE COMPONENTS INCLUDED IN iLINUX OS, DEPENDING ON EACH RELEVANT SOFTWARE LICENSE/PATENT.

Hello, I'm back on the forum.

Honestly I'm shocked about what's going on here. Wow.

iLinux Creator, I don't want to make it a big fight but you should admit that you are the real "mafia" here.

If someone criticizes iLinux, you tell them they are a part of the Mafia Community.

When Saint IGNUcius asked about the "Linux Mafia Community", you denied saying "reverse psychology".

When ClickNin gave you suggestions, you told he is a part of the Mafia, even though he wanted to peacefully talk about it.

> *“ You just proved (again) that "Linux Mafia Army" is here and that it exists and that you are a Member of it. ”*

> *“ Linux Mafia Army" doesn't exist. I think you are looking for the term "Linux Elitists", but me and a few others on this forum are not a part of the elitist community.*
>
> *Yes, I did hate and criticize your distro, but you shouldn't just assume every criticism is bad.*
>
> > *“ If you were not a member of the "Linux Mafia Army", it would be impossible for you to know if anyone who writes in this Community is a Member of the "Linux Mafia Army". ”*
>
> *This is just stupid because in this forum there are posts everywhere about "Linux Mafia Community" and that's where I heard the term first.*
>
> > *“ Since you are a Member of "Linux Mafia Army", you would never confirm that you belong to this Paid Army of Mercenaries. ”*
>
> *I don't know what kind of person pays people to promote distros. This is false. I don't get paid for this.*
>
> > *“ Free Speech = You can write whatever you want and bare the appropriate responses. ”*
>
> *I believe that free speech can only happen as long as people's other freedoms such as freedom from discrimination are not being impeded.*
>
> > *“ No covert organization/team ever admits it's existence. ”*
>
> *....because it doesn't exist?*
>
> *"Especially if they have been exposed. The so called and Self Proclaimed "Linux Community" has nothing to do with the real Linux Community. ”*

Elaborate. Describe the "real Linux Community". Linux Community is Linux Community.

"The real Linux Community is the SUM of ALL Linux Users and ALL Linux Developers. The so called and Self Proclaimed "Linux Community" indeed controls 99% of Linux Community Websites & Linux YouTube Chanells & Linux IRC Chat Channels. The so called and Self Proclaimed "Linux Community" is indeed the "Linux Mafia Army"

That depends on the website/channel.

> *“ No Censorship = Friendly ”*

So countries like the USA isn't friendly? I do agree with your statement but I also disagree.

> *“ Friendly Community = You can write whatever you want and bare the appropriate responses. ”*

I disagree with that.

> *“ When you attack someone with bad intent don't expect friendship. Expect retaliation. When you begin War with the wrong opponent, don't expect mercy. ”*

Okay...

About the OEM, you can sell your distro, but you can't demand OEMs to pay you and that's a GPL violation.

Your distro is a GPL violation.

@iLinux Support Team

> *“ You just proved (again) that "Linux Mafia Army" is here and that it exists and that you are a Member of it. ”*

Show me a single proof OUTSIDE of this forum that something like that exist!

> *“ When you begin War with the wrong opponent, don't expect mercy. ”*

When I did that? YOU are the one who did that! You are the one that start the whole thing. Watch less films. You say that "we use logic and not emotions" (or whatever you say). Then "mercy", hah, what kind of mercy here? I didn't started any war here (and will probably never), but you does, your imagination is far from what I'm capable of.

> *“ IT IS NOT for Buying, Distributing or Licensing any of the other Copyrites and Intellectual Properties included in iLinux OS, OR any of the other Free Software included in iLinux OS, OR any other kind of Free Digital Material, including but not limited to, Applications, Code, Scripts, Artwork, Icons, Fonts etc. included in iLinux OS, OR for Licensing any of the other Patents of Free Software included in iLinux OS. ”*

Firstly, I remember you said someone in another thread that they have poor English skills, and now you does! "Copyrites" hahaha.
Ok ok, I may wrong about this, but you are selling Linux kernel too? Which is protected by GPLv2 and it's creator, Linus Torvalds, and Linux Foundation. Okay, Linux is the thing that powers your "iLinuxOS", and you are selling it, with a proprietary license, 20 Euros fee, what's more. Are you dumb or not? Selling a open source software, you make me laugh so badly. Atleast remove Linux

kernel from your system and write something that you own, so that you can license it whatever you want, you are using Linux, read the whole GPL license.

@AaronTechnic

> *“ If someone criticizes iLinux, you tell them they are a part of the Mafia Community. ”*

No.

You are trying to mislead and disinform by starting the "CHARACTER ASSASSINATION" Script.

Reverse Psychology won't get you anywhere with us.

Projecting your tactics to the "Enemy" in order to confuse him and break him, mentally and psychologically won't work with us.

We know the Training Courses, Field Manuals, Textbooks and SOP you are using.

All feedback on iLinux OS is welcome (positive or negative), as long as it is based on User Experience.

If it's not based on User Experience it is Propaganda. That's what elitism is. That's what "Linux Mafia Army" is. That's what you are.

No one can judge an Operating System/Application if they haven't tried it for some time. Period.

We never said that iLinux OS is perfect and we dare you to prove us wrong, after you have done your homework...

Have you ever used iLinux or you just HATE it?

> *“ Yes, I did hate and criticize your distro, but you shouldn't just assume every criticism is bad. ”*

The keyword here is HATE.

Where there is HATE there is no Good Intent. There is just RAW HATE.

Where there is HATE there is no Critisism. There is just RAW HATE.

Where there is HATE there is no Logic. There is just RAW HATE.

Where there is HATE there is no Dialog. There is just RAW HATE.

Where there is HATE the END JUSTIFIES THE MEANS.

You have just validated in public everything that has been said in this Community about "Linux Mafia Army".

Plenty of proof in this Forum and in Internet. Read.

> *“ Watch less films. ”*

You are trying to mislead and disinform by starting the "CHARACTER ASSASSINATION" Script.

Mercy is a feeling.

In matters of technology and PSYOPS we apply logic. Not emotion.

> *“ Firstly, I remember you said someone in another thread that they have poor English skills, and now you does! "Copyrites" hahaha. ”*

There was indeed a spelling error. Get over it.
